

Organic Mung Bean Sprouts

Mung beans have been cultivated in Asia for thousands of years. Today “Bean Sprouts” are synonymous with mung beans, and popularity of this nutritious sprout continues to grow.

Mung beans are an excellent source of protein, vitamins C, A and E, as well as, many minerals. Mung Bean Sprouts are primarily used in Asian cuisine, such as pad Thai, pho, banh mi, or in stir fry, but can be added to soups and salads for added crunch.
